READY-TO-RUN

DESERT PRERUNNER

MODEL #76064-1

ALL-WEATHER, ALL-TERRAIN FUN!

Before drivers compete in the world's toughest off-road races, they first get a feel for the course in a pre-runner. Pre-runners are street-legal monsters with huge suspension travel, fortified drivetrains, and massive power. The LaTrax Desert PreRunner packs these race-bred features into a convenient, take-anywhere, 1/18 scale size.

Like full-size pre-runners, the LaTrax PreRunner is built to withstand the rigors of all-terrain racing action with its all-weather electronics. Equipped with a powerful motor, independent suspension, full-metal differentials, smooth oil-filled shocks, and 4-wheel drive, the PreRunner is Ready-To-Race® right out of the box.

FEATURES

4-Wheel Drive | **Oil-Filled Shocks** | **All-Metal Gear Differentials** | **Batteries Included** | **2.4GHz Radio System**

POWERED BY TRAXXAS

All-Weather Electronics
Drive through rain, puddles, mud & snow!
