Fiesta ST Rally

RALLY-BRED PERFORMANCE ON-ROAD OR OFF-ROAD

Modeled after Brian Deegan's Ford Fiesta® ST, the Traxxas 1/10 Rally delivers blistering rally-racing performance on the pavement or in the dirt. The Traxxas Ford Fiesta® ST Rally is specially tuned with a low-CG chassis and oil-filled Ultra Shocks™ to be agile on the track. When the pavement ends, its full-time 4WD, long-travel suspension, and off-road racing tires dig in for ultra-fast bumper-to-bumper racing action. The powerful Titan 12-turn 550 modified motor muscles you to the front of the pack with blistering speed, and waterproof electronics allow authentic all-weather racing. The 1/10 Ford Fiesta® ST Rally is Ready-To-Race® and built Traxxas-tough for versatile, exciting driving fun that could only come from Traxxas.

MODEL: 74054-6

- Scale all-terrain front and rear tires offer superior on- and off-road traction

BRIAN DEEGAN

Brian Deegan turned pro at age 17 and won his first major motocross race a year later by ghost-riding his bike across the finish line. One of the most decorated athletes in action sports, Deegan continued his winning ways after transitioning from two wheels to four. Now a full time rallycross driver, Deegan's fully-customized 600 horsepower Ford Fiesta rally car can accelerate from 0-60 in less than two seconds, and is equally at home on dirt or pavement.
